

Techtextil North America is North America's only dedicated show for technical textiles and nonwovens. This international trade fair assembles all vertical aspects of the technical textile industry: from research and development, through raw materials and production processes and finally ending in conversion, further treatment, and recycling. See below for a glimpse of the 2017 show demographics, and know what to expect in Raleigh 2019!

**SYMPOSIUM**

The highly acclaimed Techtexil North America Symposium gives attendees the opportunity to listen and learn from industry leaders and subject matter experts as they discuss some of the most pivotal advancements in research and technology and shed light on the current global economic state and its effects across industries. The 2019 symposium in Raleigh will feature 20+ speakers over 7 paid sessions on topics including Fibers, Medical Textiles, Industry 4.0, Smart Textiles, and more!

“The Symposium sessions have been informative and interesting. It’s good to see where technology is going. I always get a lot out of the sessions, no matter the location. I am looking forward to the next edition.”

- Lisa Paige, Technical Lead Engineer, ArjoHuntleigh
