Techtextil North America returns to Raleigh in 2021! Thousands of industry professionals attend the annual tradeshow, which assembles a lineup of exhibiting companies offering products and services suited for all of the major industries that involve technical textiles. Decision makers from across the globe will gather to discover the latest in innovation and product development, and expand their business potential through the sharing of ideas and collaboration among industry leaders.

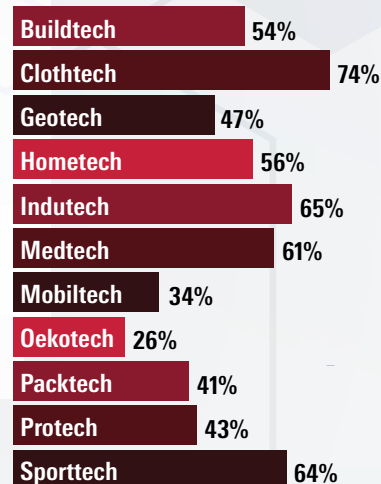

"I have made connections here that will change the future of my business."

-George F. Gianforcaro, President, IndutexUSA

WHY RALEIGH?

North Carolina is home to largest textile mill industry in the U.S. and boasts a diverse industry workforce of 42,000+ highly skilled professionals with easy drive-in traffic to the show – reducing transportation and shipping costs for many visiting and exhibiting.

Raleigh is home to North Carolina State University's (NCSSU) Wilson College of Textiles, one of the top textiles institutions in the world and the Official Academic Partner for Techtextil North America 2021.

NCSSU houses industry-leading centers and institutes, which feed Techtextil North America's educational programming and provide a wealth of opportunities for the industry:

- The Zeis Textiles Extension for Economic Development offers professional training and certification programs, and labs dedicated to spun yarn, knitting, weaving, dyeing and finishing, and physical testing for fulfilling the industry's prototyping and pilot production needs.
- The Nonwovens Institute is the world's first accredited academic program for the interdisciplinary field of engineered fabrics. The Nonwovens Institute engages experts from industry and higher education in building next-generation nonwoven applications while also providing training and guidance to the field's future leaders.

#TTNA19
in Raleigh saw a
52% increase in
total visitors!

"Raleigh was a great show for us. We were impressed with the quality and purchasing power of visitors at the show, and made connections with leaders from top global companies that we would not have made otherwise. We will definitely make it back for the next edition."

-Matt Kolmes, CEO, Supreme Corporation

EXPLORE THE SEWN PRODUCTS INDUSTRY AT TECHTEXTIL NORTH AMERICA!

TEXPROCESS AMERICAS PAVILION

As a new feature in 2021, Techtextil North America will expand its offering to include a Texprocess Americas Pavilion — supported by SPESA — featuring machinery, equipment, and technology suppliers. This pavilion will provide a setting designed to foster new business opportunities between exhibitors and attendees. Leaders from across the industry will be given the chance to meet, learn, and see equipment functionality firsthand.

Contact our sales team for information on joining the Texprocess Americas Pavilion: TTNASales@usa.messefrankfurt.com

THE CONFERENCE

SPESA will once again co-locate its Advancements in Manufacturing Technologies Conference with Techtextil North America in 2021. SPESA's Advancements Conference is a unique opportunity to not only learn about new ideas, solutions, and technology available for the sewn products industry, but to also ask all the questions you've ever wanted answered from the people who create the solutions and products you need. The conference features SPESA members who are happy to discuss the products they make as well as the challenges they still want to tackle to improve efficiency, speed, and accuracy in sewn products manufacturing. Previous topics include: microfactories, on-demand manufacturing, software connectivity, industry 4.0, robotics, and automation.

TWO EVENTS IN ONE

Co-locating SPESA's Advancements Conference with Techtextil North America allows attendees to make the most of their valuable time and resources by attending two events in one. Conference registration includes access to the show floor, and plenty of time to network with speakers, exhibitors, and attendees.

RALEIGH LOCAL VISITORS INCLUDE:

- Hanesbrands
- Gildan Activewear
- Kimberly-Clark
- Cotton Inc.
- Raleigh Denim
- VF Corporation
- Tom James Company
- and many more!
