NORTH AMERICA

WHERE THE TEXTILE INDUSTRY MEETS

Techtextil North America returns to Raleigh in 2024 with a strong lineup of exhibiting companies offering products and services suited for all major technical textile and nonwoven industries. Thousands of influential professionals will gather to discover the latest in innovation and product development, as well as share ideas and insights with diverse industry leaders.

**I have met connections here
that will change the future of my
business forever.**

— Indutex USA

APPLICATION AREAS

Techtextil North America covers all industry segments from A to Z with dedicated application areas. Committed to presenting industry products for every possible use, the 12 application areas are designed to help our attendees locate the types of products and services they need from exhibitors. Explore the extensive market reach of the technical textiles industry.

Agrotech

Agriculture, horticulture, forestry, and landscape gardening, including crop protection fabrics, shading, and ground covers.

Buildtech

Construction and architecture, featuring membranes, awnings, tarpaulins, and soundproofing materials.

Clothtech

Clothing and footwear, such as interlinings, sewing threads, and insulation materials.

Geotech

Geotechnical and civil engineering projects, with geotextiles for reinforcement, filtration, and drainage.

Homotech

Household contexts, encompassing upholstery fabrics, carpets, and curtains.

Indutech

Industrial contexts, involving filtration, cleaning textiles, and conveyor belts.

Medtech

Medical and hygiene contexts, including surgical gowns, bandages, and implants.

Mobiltech

Automotive and aerospace industries, with seatbelts, airbags, and interior fabrics.

Oekotech

Environmental protection, featuring erosion control, waste management textiles, and air and water filtration.

Packtech

Packaging, including bags, sacks, and flexible intermediate bulk containers.

Protech

Personal and property protection, with flame-retardant fabrics, bulletproof vests, and high-visibility clothing.

Sporttech

Sports and leisure activities, such as sportswear, equipment covers, and sailcloth.

SYMPOSIUM SCHEDULE | TUESDAY, AUGUST 20

The highly acclaimed Symposium provides an opportunity to listen and learn from industry leaders and subject matter experts as they discuss some of the most pivotal advancements in research and technology, as well as shed light on the current global economic state and its impact across industries.

8:00 AM-9:15 AM

NextGen Minds: A Tapestry of Student Research Projects

Hear from some of the promising minds entering the industry as they present their research.

**Moderator
Dr. Behnam
Pourdeyhimi**
Associate Dean for
Industry Research
and Extension,
William A. Klopman
Distinguished
Professor, Executive
Director, The
Nonwovens Institute

9:30 AM-10:45 AM

Smart Threads and Healing Fibers: Navigating the Intersection of Wearable Technology, Medical Textiles and Legal Compliance

The future of healthcare is here - learn about wearable technology and medical textiles. Explore the intricacies of yarns woven with integrated medicine, exploring their transformative impact on patient care, compliance and well-being.

Jeff Margulies
Partner-in-
Charge,
Norton Rose
Fulbright

Jordan Schindler
CEO,
Clothing 2.0

Samantha Shintay
Account Executive,
Hohenstein Institute
America

1:15 PM-2:30 PM

Department of Defense Trend Forecast

Dive into the cutting-edge realm of textile military research for protection, where innovations converge to redefine defense textiles. Uncover the latest advancements needed to revolutionize military gear and safeguard our armed forces.

Laura Winters
Director,
Navy Clothing &
Textile Research
Facility

2:45 PM-4:00 PM

Due Diligence and Transparency: What? Why? How?

Several state, US and EU governments have or will soon implement laws affecting every part of the supply chain. We'll discuss the frameworks, legal requirements and company approaches to this big topic.

Jeff Margulies
Partner-in-Charge,
Norton Rose
Fulbright

SYMPOSIUM SCHEDULE | WEDNESDAY, AUGUST 21

8:00 AM-9:15 AM

Real World Circularity: Stitching a Sustainable Future in the Textile Industry

Join industry leaders, innovators, and practitioners in sustainability as they discuss strategies for achieving sustainability. Discover strategies for achieving a net-zero carbon, handling the plastics problem and navigating chemical and mechanical recycling methods.

Bob Carswell
R & D Director,
Material Return

Sean Su
Senior Director
of Product
Development,
Circ Inc.

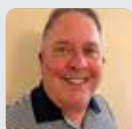

Shane O'Toole
Senior Manager
of Product
Development

9:30 AM-10:45 AM

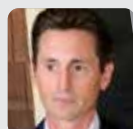

Durable Water (DWR): Balancing Performance and Sustainability

This session will explore the challenges and opportunities in achieving high-performance and eco-friendly DWR - a hot topic as we consider non-PFAS alternatives.

What decision factors and methods can be used to verify and enhance DWR performance? We'll explore how different parts of the supply chain are tackling this issue.

Thomas Poston
Daikin America
Inc.

Stacey Bridges
Vice President of
Sales,
Hanes Dye and
Finish

1:15 PM-2:30 PM

Building Resilient Supply Chains Through Near Shoring and Co-Production

This session will dive into the recent shift in the textile industry toward more near-shoring and co-production models with Central America, and explore how this model supports the domestic textile industry. Learn about current challenges, and how recent US investments will build a more resilient, sustainable model for textile production.

David Hinks
Dean of the
Wilson College of
Textiles,
NC State
University

Also speaking:
Julie Rader
Director of
Sourcing at
Walmart

2:45 PM-4:00 PM

Revolutionizing Apparel Production: Unleashing the Power of Digitalization, 3D Development and AI Innovation

Step into the future of apparel production with the transformative impact of digitalization. Explore the world of 3D development, digital twins and on-demand manufacturing, as technology changes efficiency and decision making in the industry.

Graham Sullivan
Founder,
SEDDI

Ben Mead
Managing Director,
Hohenstein
Institute America

Frank Henderson
CEO,
Henderson Sewing
Machine Company

SYMPOSIUM SCHEDULE | THURSDAY, AUGUST 22

8:00 AM-9:15 AM

Talent Recruitment and Retention: Practical Solutions for Rebuilding Your Workforce

Recruiting and retaining talent in the textile manufacturing industry can be challenging, but implementing practical solutions can help rebuild your workforce. Learn about skill development programs, defined career paths and strategic collaboration with educational institutions.

Molly Hemstreet
Co-Founder and
Co-Executive Director,
The Industrial Commons

Joy Morrow
Gaston College,
Work-Based Learning
and Placement, Job
Developer/Coordinator

Jennifer Etters
Gaston College,
Work-Based Learning and
Placement, Coordinator

9:45 AM-11:00 AM

Empowering Women at Work: Bridging the PPE and Workwear Equity Gap through Fit and Digital Innovation

Explore the critical intersection of gender equity and workplace safety as we discuss women's PPE and the workwear equity gap. Identify and investigate the gaps in design and manufacturing, discover how digitalization is paving the way for innovative solutions and examine actionable strategies.

Melissa Dixon
Director of Product
Management,
National Safety
Apparel

Dr. Cassandra Kwon
Research
Assistant
Professor, Wilson
College of Textiles,
NC State
University

Kelly Franko
Founder & President of
Seraphina Safety Apparel &
Manufacturing

AVOID THE LINES – REGISTER NOW!

Beat the crowd, register early for Techtextil North America to secure your spot without the hassle. You can easily sign up by using one of three convenient ways:

► Scan to register

► Register by phone (678) 737-8029

► Register online www.techtextilna.com/us/en/attend.html

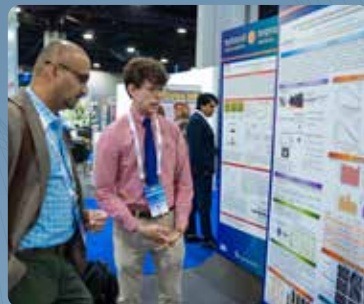

THE SHOW FLOOR

Experience true textile innovation in the exhibition, packed with dedicated special feature areas. Each area is designed to provide in-depth insights and business-building connections.

► Student Research Poster Program

An exciting area featuring the latest scientific developments in technical textiles and nonwovens. Meet the future of our industry, sharing their research findings. Select projects will be presented as a part of the Symposium program, *NextGen Minds: A Tapestry of Student Research Projects*.

Tuesday, August 20, 8:00AM

► Innovation Awards 2024

The Innovation Awards honor outstanding performance in the fields of research, new materials, products and technologies, applications, and new developments in technical textiles and/or nonwovens.

Tech Talks stage Wednesday, August 22, 12:00 – 12:30PM

► The Textile Museum Exhibition

Sponsored by North Carolina State University and the Wilson College of Textiles, stop by this dedicated space and view some of the very early pieces of machinery to the cutting-edge technologies of the future

Open during show hours

TECH TALKS: FAST-PACED DISCUSSIONS BRING NEW INSIGHTS

Complimentary education on the show floor, engage in informative and insightful discussions on various technological advancements and innovations within the textile and nonwovens industries. Tech Talks offers the opportunity to gain valuable knowledge from experts in the field, and network with like-minded individuals.

AUGUST 20

- 11:00 AM – 11:30 AM Regulatory & Policy Update – US Textiles
- 12:00 PM – 12:30 PM Testing and Standards: The Most Efficient Path to Textile Sustainability
- 1:00 PM – 1:30 PM The Engineered Fabric Platform
- 2:00 PM – 2:30 PM North Carolina Textile Innovation and Sustainability Engine
- 3:00 – 3:30 PM 125 Years of Textile History

AUGUST 21

- 11:00 AM – 11:30 AM Medical Technologies
- 12:00 PM – 12:30 PM Innovation Awards
- 1:00 PM - 1:30 PM Advances in Post-Consumer Textile Recycling
- 2:00 PM – 2:30 PM Sustainability in Nonwovens
- 3:00 PM – 3:30 PM PFAS: What is it and what can we do?

AUGUST 22

- 11:00 AM – 11:30 AM Promise of 3D, What the Future Requires from Today
- 12:00 PM – 12:30 PM Walmart and Unspun – Leading the Way
- 1:00 PM – 2:00 PM Resume Building, LinkedIn & Career Networking

Innovation Awards

Experience the new generation of industry breakthroughs that redefine the very fabric of the industry.

*Updated as of August 8, 2024, visit www.TechttextilNA.com for the most up-to-date list.

AFTER HOURS NETWORKING

OPENING NIGHT RECEPTION

The official Techtextil North America Opening Reception will be held on the beautiful Centennial Campus of North Carolina State University at the Dorothy and Roy Park Alumni Center. The Alumni Center is an impressive feat of architecture designed to be multipurpose – a perfect end to a productive and inspiring trade show experience. Enjoy an exciting night of entertainment, food, and an open bar.

A NIGHT OF EXPLORATION & NETWORKING

Before taking off to the Opening Night Reception, take the opportunity to meet and greet with students, faculty and other industry professionals as you tour the top-of-the-line laboratories and fabrication facilities at NC State University's Wilson College of Textiles. Get in on LIVE! Demonstrations.

125TH ANNIVERSARY CELEBRATION

The official education partner of Techtextil North America 2024, North Carolina State University and the Wilson College of Textiles celebrates its 125-year anniversary.

Techtextil North America is pleased to be a part of this celebration as this internationally renowned program has helped solidify Raleigh as the epicenter of the U.S. textile industry and through this partnership, visitors and exhibitors can learn more in the educational sessions, the student poster research program or connect at the Opening Night Reception.

Visit textiles.ncsu.edu to find out more
